NOTE: Out of 140 licensees researched, we were able to find data on 121 stations. Of those 121 stations, none of them had studios in their community of license (COL). This data set contains all Commercial Changes in Communities of License (CCOL) granted from 1/19/07 to 7/8/08, where the licensee claimed First Local Service. Under Column S, "1" means that we were able to find data and "0" means that we were unable to find data on that station.
